# KENWORTH NavPLUS®: A MORE PRODUCTIVE AND INTELLIGENT WAY TO TRAVEL

When you're keeping one eye on the road and the other on your bottom line, it pays to invest in systems that help you work smarter...get things done faster...connect with the right people...keep you on track...and just plain make it more fun – and less tiring – to do your job.

Introducing Kenworth NavPLUS, the trucking industry's first PC-based in-dash display designed specifically for life on the road. Consider it your personal assistant. With a simple touch to the high-resolution 7-inch color screen – or a spoken command – you have direct access to a full range of valuable and productive features: Truck-specific navigation, roadside assistance, vehicle data, hands-free phoning, audio controls (including satellite radio, AM/FM/CD/MP3/USB/Bluetooth), blind-spot camera inputs and the internet. Kenworth NavPLUS. Enjoy the road.

## KENWORTH NavPLUS®

On-board navigation is becoming commonplace, but NavPlus is the first system in the industry to offer optimized routes customized to your truck parameters and your load. You get voice-prompted turn-by-turn directions, up-to-the-minute alerts on traffic conditions\* plus a comprehensive guide to Kenworth dealerships nationwide.

Add an optional 4G cellular modem for easy connectivity. Send and receive e-mail, contact the office, submit your paperwork, link up with Kenworth PremierCare services, PACCAR Parts and surf the net just as you would from home.

NavPlus makes adding a camera system quick and easy. Real-time screen views for up to four cameras are directly and instantly accessible.

Kenworth NavPlus puts state-of-the-art truck navigation, plus...diagnostic, communication and entertainment technologies at your fingertips – delivering a comprehensive set of valuable tools designed specifically for the trucking industry. Control central is a bright, high-res 7-inch touch screen offering intuitive and direct access to all functions.

Six virtual gauges provide current information on truck operation. Oil temperature, transmission temperature, manifold boost, present and average fuel economy, DPF status and engine torque come pre-loaded.

NavPlus audio features AM/FM/Weather bands, Sirius satellite\* capability for commercial-free programming cross country, CD player, USB port for memory devices containing MP3 or audio files, auxiliary MP3 player hookup and Bluetooth wireless audio streaming from Bluetooth enabled devices.

NavPlus integrates Bluetooth wireless technology with a built-in microphone and speaker. Just pair it with your compatible Bluetooth phone and talk hands-free.

Note: Equipment and specifications shown in this brochure are subject to change without notice.

Consult with your Kenworth dealer at time of ordering for standard and optional equipment.
